N		United States Treasury, Washing-
G.,		ton.

Chief Architect Taylor will be designed under his supervision

other main exhibit buildings of unestimated dimensions not announced

The fourteen principal exhibit buildings of the Louisiana Purchase Exposition, which Director of Works Taylor.

BUILDINGS ASSIGNED were assigned yesterday to the architects who will design them, will exceed in size and grandeur those of the Chicago Columhian Exposition or any fair in the world's

At St. Louis the largest structure will be the Agricultural building, whose dimensions are 700x2,000 feet. The mammoth building at Chicago was the Manufactures and Liberal Arts building, which measured only 787x1.687 feet. Comparison of the entire list shows in nearly every instance the dimensions of the St. Louis buildings larger than those at Chicago.

With the exception of Director of Works Isaac S. Taylor, each member of the commission will design one of the main buildinge, the dimensions, name and conditions of which were given him at the meeting of on of Architects at the Planters Hotel yesterday. Mr. Taylor will design the Agricultural and Service buildings, also four additional exhibit buildings, the names

of which have not been given out.

The United States Government building will be designed by J. Knox Taylor, supervising architect of the United States Treasury Department. This structure will be 400x00, the largest ever erected by the Fed-eral Government at any exposition. The di-mensions of the Government building at Chi-

cage were 345x415 feet.
All the members of the commission were instructed to press forward the work of designing their several buildings with all possible speed. The commission adjourned to meet in St. Louis on October 7 at 11 a. At that time it is expected that the igns will be completed and ready to turn over to the engineers, who will work out

The estimated cost of the buildings assigned at yesterday's meeting is \$7,000,000.
This does not include the four structures which were not denominated, and which will

TO THE ARCHITECTS.

There was a full attendance of the com-mission at the meeting, and the session lasted over four hours. The ground plans, as developed by Chief Designer E. I. Mas-queray, since the last meeting, were gone over mirutely and approved. After a few explanatory remarks, Mr. Taylor assigned

the exhibit buildings.
In St. Louis the exhibits coming under the head of manufactures and liberal arts will be housed in two buildings, instead of one as was the case at the Columbian Ex-position. The Manufactures building, which is to be 600x600 feet, will be de-signed by Hames & Young of St. Louis. The Liberal Arts building, 600x1,200 feet, was assigned to Carrere & Hastings of

To Van Brunt & Howe of Kansas City was assigned the Mining and Metallurgy building, which is to be 600x1,200 feet. This same building at Chicago measured only

The Art building will exceed in size, nything which has been seen at any exposiion. It will consist of a central building
200x000 feet, with wings extending on either
side, measuring 200x300 feet each. This will
be designed by Cass Gilbert of New York.

Transportation exhibits will be housed in
an enormous structure 600x1,200 feet, the designs for which will be drawn by Widman,
Walsh & Boisseller of St. Louis. At Chicase the Transportation building measured.

cago the Transportation building measured

The educational and social economy exhibits will be divided and assigned to separate buildings. The first of these will be contained in a structure \$50x700, which will be designed by Theorore C. Link of St. Louis. The Social Economy building will be designed by Barnett, Haynes & Barnett of St. Louis and will measure \$50x700 feet.

Walker & Kimball of Omaha, Neb., and New York will draw the design for the Electricity building, which is to be \$60x550 feet.

# THIS WORLD'S FAIR DESIGN MAY BE ADOPTED.

The Commission of Architects is enthusi-astic over the work accomplished yesterday. Members of the commission stated that the real work of building the World's Fair has commenced, and that things are now in chape to go ahead without intermission. At the meeting of the commission on Octo her 7 the various designs of the main buildings will be criticised by that body as a whole and fitted into general ground ar-

rangement.

Each architect will confer with the committee controlling the department to be housed by his building before starting to work upon the design. All the necessary data is at hand, and no delay will be occasioned by these conferences.

The architects who attended the meeting

Director of Works Taylor says that with the exception of a few minor details, the ground plan, or general "picture," of the Exposition is completed and that it will be made public within the next two weeks.

GROUND PLAN IS COMPLETE.

()LAGOOM COURT

#### DIVISIONS OF WORLD'S FAIR GROUND PLAN WHICH MAY BE APPROVED.

Rough draft giving a general idea of the probable central "picture" of the Louisiana Purchase Exposition, revealing the conformation of the main exhibit buildings to the ground plan of the Fair, together with suggestions for the disposition of the lagoon and cascade effects. The proportion and contour of the spaces marked for the buildings are mere general applications of the architectural vision and are not presumed to be mathematically exact. With the announcement that there will be fourteen main buildings, the belief seems to be growing that the general scheme of the Fair will be, in the rough, along the line set forth in the diagram, resembling a fan in shape. The design as settled upon will not be made public for two weeks.

on all the buildings which the commission will erect on the World's Fair Grounds. Governor Dockery will probably be present at our sessions.

"It is likely that we will engage the architects who will design the Missouri buildings and complete the salaried organization of the commission before leaving the city. We are anxious to get to work at once and as soon ar spece has been allotted us, will soon ar spece has been allotted us, will commence active operations. As yet it is impossible to state what plans we will adopt for the Missouri buildings."

The company will bear the expense of building a handsome structure, in which it is mended to show the resources of the States through which the railway lines of the Southern System pass. This feature of adopt for the Missouri buildings."

The company will bear the expense of building a handsome structure, in which it is intended to show the resources of the States through which the railway lines of the Southern System pass. This feature of adopt for the Missouri buildings."

The company will bear the expense of building a handsome structure, in which it is intended to show the resources of the States through which the railway lines of the Southern officials propose doing at the World's Fair. The details of the Proposed exhibit have not been completed, but the pian in the abstract is now in the hands of the States and Territorial Committee, which is preparing to pass on the request for space he fore making its recommendation to the States through which the railway lines of the World's Fair.

U. G. HINMAN OUSTED.

Sangamon Republicans Elect J. W. Wheeler as Chairman. REPUBLIC SPECIAL

Springfield, Ill., Sept. 21.—U. G. Hinman was ousted from the chairmanship of the Sangamon County Republican Central Committee and Doctor J. W. Wheeler of Auburn. was elected to succeed him. Hinman's undoing is the result of his becoming unpopular with Governor Views.

undoing is the result of his becoming unpopular with Governor Yates.

Becently the executive called for Hinman's resignation as chief clerk in the
Labor Board, and closely following this action several members were removed from
the County Central Committee, and Yates
men were given the places. Members of
the County Central Committee insist that
Hinman had formed an alliance with the
Cullom-Dawes faction to deliver the county
to them in the coming senatorial fight.

## REGULATIONS FOR THE YACHT RACES.

Hook Lightship—In Case of Accident.

New York, Sept. 20.—The rules to govern the yacht races for the America's Cup, to begin next Thursday, are in the hands of operated by the Robinson Danforth Mills. Company, manufacturers of cereal products, almost entirely destroyed the elev

the printers. The start each day, weather permitting, will be at 11:30 o'clock from Sandy Hook lightship, if possible, and the two boats will be allowed five and one-half nl consent. ne of the regulations governing the placed at \$60,000.

Start will be made from Sandy Hook lightship at as near 11:20 a. m. as will be practicable, the preparatory signal being given fifteen minutes in advance, but always with the understanding the best of the same and the same and

ways with the understanding that, should the direction of the wind prevent laying the course from the lightship, the starting line will be shifted to the nearest available point and that in this case the preparatory signal will be given about half an hour before the time set for starting from the flagship. Starting and finishing lines will be between a point on the committee boat indicated by a white flag and the main mast of the lightship or other stake boat if the start be shifted from the lightship. These lines will be a right angles with the outward and home courses, respectively.

Marks will be white floats, carrying a red ball, with horizontal white stripes. The ways with the understanding that, should

ball, with horizontal white stripes. The position of each mark will be indicated by two-masted tug lying about 100 yards be a two-masted tug lying about 100 yards beyond. The tugs will carry a red ball at
each masthead and will swing a red ball
from the triatic stay. Should a mark be
wrecked, its place will be taken by its
marking tug, which will display a red fing
with diagonal white stripes, in addition to
the other indications, and in turning the tugthe directions for the mark will govern.

Preparatory—A gun will be fired, the clue peter set and a red ball hoisted. Start—Fifteen minutes later a gun will be

Start—Fifteen minutes later a gun will be fired and the ball will drop.
Handleap time—Two minutes later a gun will be fired and the blue peter hauled down. Should a signal gan miss fire a prolonged blast of the whistle will be given. At the finish a short blast will be given as each vessel grosses the line.

vessel crosses the line.

Accident—Should either vessel meet with serious accident prior to the preparatory signal, she will display letter T and shull have sufficient time to repair before being required to start, or should such accident occur during a race, she shall have time to repair before the next race is started. Preliminary—Should the start be materially postponed—fifteen minutes or over—a preliminary signal will be made by the discharge of a gun and the display of the harge of a gun and the display of the preparatory signal.

Night-After dark the marking tugs, and at the finish line the committee boat (and the stakeboat of the start has been shifted the stakeboat of the start has been shifted the shifted the start has been shifted the shifted the start has been shifted the shifted the start has been shifted the shifted the start has been shifted the shifted t

nd one-half hours. No race to be started after 2:30 p. m.

### FILING RECORD BROKEN.

ceived by Circuit Clerk.

ceived by Circuit Clerk.

Yesterday was the banner day for litigation at the Courthouse, 103 suits being illed in the Circuit Clerk's office. On Friday 102 suits were filed. Prior to that the number of suits brought in one day never reached as high as 109.

The reason of the rush on the two days was because last week was the final week for filing suits to be tried at the October term of the Circuit Court and the Courthouse being closed on Thursday, on account of the President's funeral. In the past term \$55 suits were filed. In the corresponding term last year 756 suits were placed on record.

# **PURINA MILLS**

Starts to Be Made From Off Sandy Losses May Aggregate More Than \$60,000—Origin of the Blaze Is Unknown.

> A fire, which started last night at 64 attached to the mills, and damaged other buildings to the extent of \$15,000. The total damage to the buildings and contents is

The blaze was discovered by Night Watchman William Kanzow, and when first een was burning through the roof of the cupola at the top of the elevator. An alarm was sounded and two fire companies had hardly reached the scene when a general alarm was sounded. In spite of prompt and herole work on the part of the fire the blaze rapidly spread until the whole south wall of the elevator building was in flame. The elevator was constructed of ins planks, laid flat and sheathed on the outside with corrugated iron. The character of the building made it extremely difficult for the firemen to keep the blaze in subjection and not until great squares of the corrugated iron had been ripped away did the streams of water succeed in extinguishing the fire that was burning between the

After three hours of hard work the Tire Department had the flames under control, though not before the interior framework and walls of the elevator had been burned away and the whole building so badly damaged that it will have to be rebuilt. damage to the building used as a mill was caused principally by water, and will not exceed \$15,000.

exceed \$15,000.

There were stored in the elevator at the time of the fire nearly 40,000 bushels of wheat and corn, valued at \$25,000, and this will be almost a total loss. In addition feed stock valued at \$10,000 was destroyed. The total damage will approximate \$50,000, and in fully covered by insurance.

is fully covered by insurance.

The work of rebuilding the elevator will begin as soon as the insurance companies adjust the losses.

Robinson Danforth, president of the Robinson Danforth Milling Company, said last hight that his investigation had falled to positively account for the fire, but he gave it as his opinion that it was due either to an

overheated bearing in the conveying chinery or to a spark from the smokes of a neighboring manufacturing plant.

## MISSOURI LEADS IN BUTTER!

Captures Prizes for Exhibits at the Buffale Exposition.

REPUBLIC SPECIAL.

Pan-American Grounds, Buffalo, N. Y.,
Sept. 21.—In the awards in the Dairy Department of the Pan-American Exposition
announced to-day, Missouri has achieved
even greater victory than in the July competition. Out of fourteen exhibitors, twelve
have received awards. They are as follows,
with the result of the scoring given:

Holden Creamery Company, 55, 99; H. C.,
Goodridge, S.; Rudolph Miller, 94, 75; Corning Creamery Company, 94, 25; Garden City
Creamery Company, 94, 25; Nathan King,
94, 25; Corder Creamery Company, 94; Macon
Creamery Company, 94.

St. Corder Creamery Company St; Macon Creamery Company, M.

This is the best showing Missouri ever made at an exposition, and has completely outdone the other States, except New York. Commissioner John F. Beal and his superintendent. R. L. Wright of Clayton, St. Louis County, are highly gratified over the success of their work, which was accomplished, as all Missourians know, in the midst of the great drought of the past two months. As a result of the dairy scoring at the Pan-American Exposition during the past three months, the best Missouri butter has already found an abundant market in Buffalo at the highest price.

Many of the Missouri creameries were rejuctant to send their products so far from home to compete with the greatest States, and their success has been as complete a comprise to them as to exhibitors from them States which have long been hald to be superior in the dairy business.

#### Buffalo, N. Y., Sept. 21.-Leon F. Czol- ald sat in a chair directly in front of him, gosz, whose trial for the assassination of stooping down and peering into Czolgosz' President McKinley will begin next Mon- face. They remained alone for exactly hall

ative Than at Any Time Since His Arrest.

DOCTOR-M'DONALD WILL MAKE STILL FURTHER EXAMINATION.

CZOLGOSZ LIKELY TO BE

day, was examined as to his manity or in- | an hour, when the prisoner's attorney eanity for one hour this afternoon by Doctor Carlos F. McDonald of New York, the eminent alienist who was for years the chairman of the State Board of Lunacy former Justices Lorain L. Lewis and Rob ert C. Titus, were present at different times during the examination. At its close Doc tor McDonald declined to discuss the case and the attorneys would not express their opinion as to the assassin's mental condi on, although the inference drawn from their answer was that they believed Czol

goer to be same. Mr. McDonald was brought to Buffalo through the efforts of President Adelber foot and other members of the Erie Coun ty Bar Association for the purpose of pass ing upon the murderer's sanity, as the association has promised to assist Judges Lewis and Titus, who were suggested as counsel for the defense by the trustees of

Alone With His Lawyers. The examination was held in the private office of District Attorney Penney in the City and County Hall, and preparations for it were kept secret, Judges Lewis and Titus appeared at the City Hall a few minutes past 2 o'clock, and went at once into the District Attorney's private office. At 3:25 o'clock Csolgoes was brought into the of-fice, handcuffed to Assistant Superintendent Cusack of the Police Department. He had been taken through the tunnel under Dela ware avenue. The prisoner was left alone with Judges Lewis and Titus.

At 2:00 o'clock Doctor McDonald appeared in the District Attorney's office and went at once into the private office with Mr Penney. Ten minutes later the two lawyers and the District Attorney came out, leaving Doctor McDonald alone with the pris er. The prisoner met at the end of the District Attorney's desk and Doctor McDonagain entered the room. Five minutes later they came out, and Judge Lewis left to Lewiston. When questioned as to whether or not the prisoner would talk to his cosel, as he had refused when Judge Lewi ment, to say a word, the venerable Judge

Talks More Freely. "He is talking more freely, but he is not a voluble chap. He said nothing upor which we might work in basing a defense. At 4:35 o'clock Czolgosz was taken back to the jail via the tunnel, hancaffed to De-

Caolgona had been shaved since his last appearance before Judge Emery in the County Court, when his plea of not guilty was entered, and presented a much better

The apparent affectation of unconscious ness of surroundings seemed to leave the prisoner and it was noticeable that he did not keep his head bent forward and his eyes looking only at the floor as he passed to and from the examination. He walked nore sprightly and did not have to be dragged along by the officers as heretofore. When he was being led back to the jail he chatted quite freely with one of his guards. His general appearance was that of an or dinary young man of the so-called middle classes. He does not appear to be of the familiar type of anarchists, nor is he good ooking enough to attract the second glance

of one meeting him. In answer to questions, Judge Titus said "The prisoner talked, but not freely. He talked considerably to District Attorney Penney and Doctor McDonald, but was not very communicative with Judge Lewis and myself. I would not care to say whether or not he said anything which would serve to help us in forming a basis of defense.

# nasium. The cadets were attempting various feats, and Cadet Daust attempted to jump over the horizontal bars and missed the mat. failing on his arm, fracturing it below the elbow. He was taken to his home in St. Louis. "Will Doctor McDonald be a witness fo

BELIEVES DREADED COLLAPSE MAY NOT OCCUR. Canton, O., Sept. II.—Mrs. McKinley was one of the first at the house in • North Market house to arise to-day. decide upon a change, or the Justices should decide upon a change, or the Justices should decide that it would suit their purposes bet-ter to have another of their number act. Justice White will preside at the trial. There was nothing to-day to show that the suggestion made relative to the selec-

is acceptance.
Following that conference Justice Titus

As soon as outsiders learned of the delay of Justices Lewis and Titus in reaching a conclusion, members of the Bar Association hastened to the office of Mr. Titus to urge upon him the acceptance of the duty. Among the callers were John C. Milburn. President of the Exposition, and Adelbert Moot, president of the Bar Association. Mr. Milburn and Mr. Moot pointed out that no odium could attach to the legal defender of Caolgoss; that this was a perfunctory and routine duty and that it was absolutely necessary that counsel for the defense should be men of high repute and standing, who would lend dignity to the proceedings. They were, it was said, determined that no notoriety-seeking lawyer should work his way into the case and turn the trial into a sensation not in keeping with the ideas of law-abiding American citizens Jus-
